**VIA ECFS**

Ms. Marlene H. Dortch  
Secretary  
Federal Communications Commission  
445 12<sup>th</sup> Street, SW  
Washington, DC 20554

**Regarding Consumer Information and Disclosure - Measurement of Mobile Broadband Network Performance and Coverage CG Docket No. 09-158; CC Docket No. 98-170; WC Docket No. 04-36**

To whom it may concern,

On August 2<sup>nd</sup> - 2010, Jon Curley and Nik Tuson of Epitiro Group spoke by phone with Jordan Usdan of the Wireless Telecommunications Bureau. During the call, the representatives of Epitiro discussed a range of methods currently in use by Epitiro to collect mobile broadband performance measurements on behalf of a range of Govt bodies including Ofcom (UK Govt., Office of Communications). This discussion covered a range of measurement models including fixed probes, drive testing and crowdsourcing methodologies utilising PC/Dongles and smart-phones. We also discussed a range of reporting models that might be utilised to communicate information to consumers.

Pursuant to Section 1.1206 of the Commission's rules, an electronic copy of this letter is being filed for inclusion in the above-referenced docket.

Yours truly,

Iain J.D. Wood  
Head of Regulatory Affairs  
Epitiro Group
